

Documentation:Education Pro WordPress Theme

Install **Education Pro** WordPress Theme within a few minutes.

Education Pro is a simple, clean, responsive and user-friendly education WordPress theme specially designed for university, school, college or other educational institutions. The **Education Pro** theme has powerful theme customization options such as custom header settings, logo, custom menu, social icons, featured slider, courses and more. It makes your website more engaging and informative. Especially, the Education Pro theme works excellent with Free Education Helper and learpress plugins, help you easily create flexible content and sell the course online.

Required plugins:-

1. Free education Helper (<https://wordpress.org/plugins/free-education-helper/>)
2. Learnpress - WordPress LMS Plugins(<https://wordpress.org/plugins/learnpress/>)
3. Events Manager (<https://wordpress.org/plugins/events-manager/>)
4. Contact Form 7(<https://wordpress.org/plugins/contact-form-7/>)
5. Newsletter(<https://wordpress.org/plugins/newsletter/>)
6. One Click Demo Import (<https://wordpress.org/plugins/one-click-demo-import/>)

Pro Features:

1. Theme colors(Primary theme color, secondary theme color),
2. Google font(more than 600+)
3. Course single page with featured image or video options,
4. Event single page layout,
5. Join event button with events plugins,
6. Faq page,
7. Teacher archive page two different layouts,
8. Teacher single page and testimonials page,
9. Blog left right and none design settings
10. Frontpage section reordering
11. Muti-post thumbnail in events

Education Pro documentation: How to start?

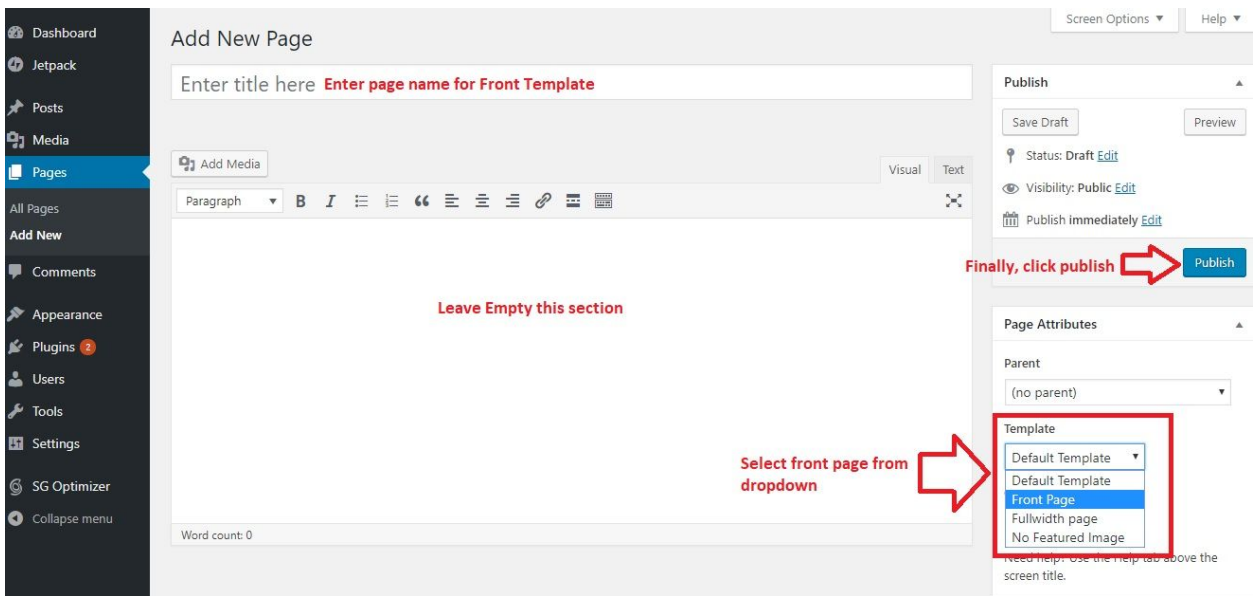

This documentation will show you step by step how to complete the basic configuration of **Education Pro**. It is important that you follow these steps carefully because some steps build up on each other and that will help you a great deal to set up your website properly:

1. How to set up a static front page in WordPress?
2. How to upload, install and activate Education Pro?
3. What is page and how to create it?
4. What is category and how to create it?
5. How to create menus?
6. How & where to place widgets on your website?
7. How to create posts?
8. How to add logo, header image and site title/tagline?
9. How to adjust options & layout?
10. How to add google map in contact page?

1 – How to set up a static front page in WordPress?

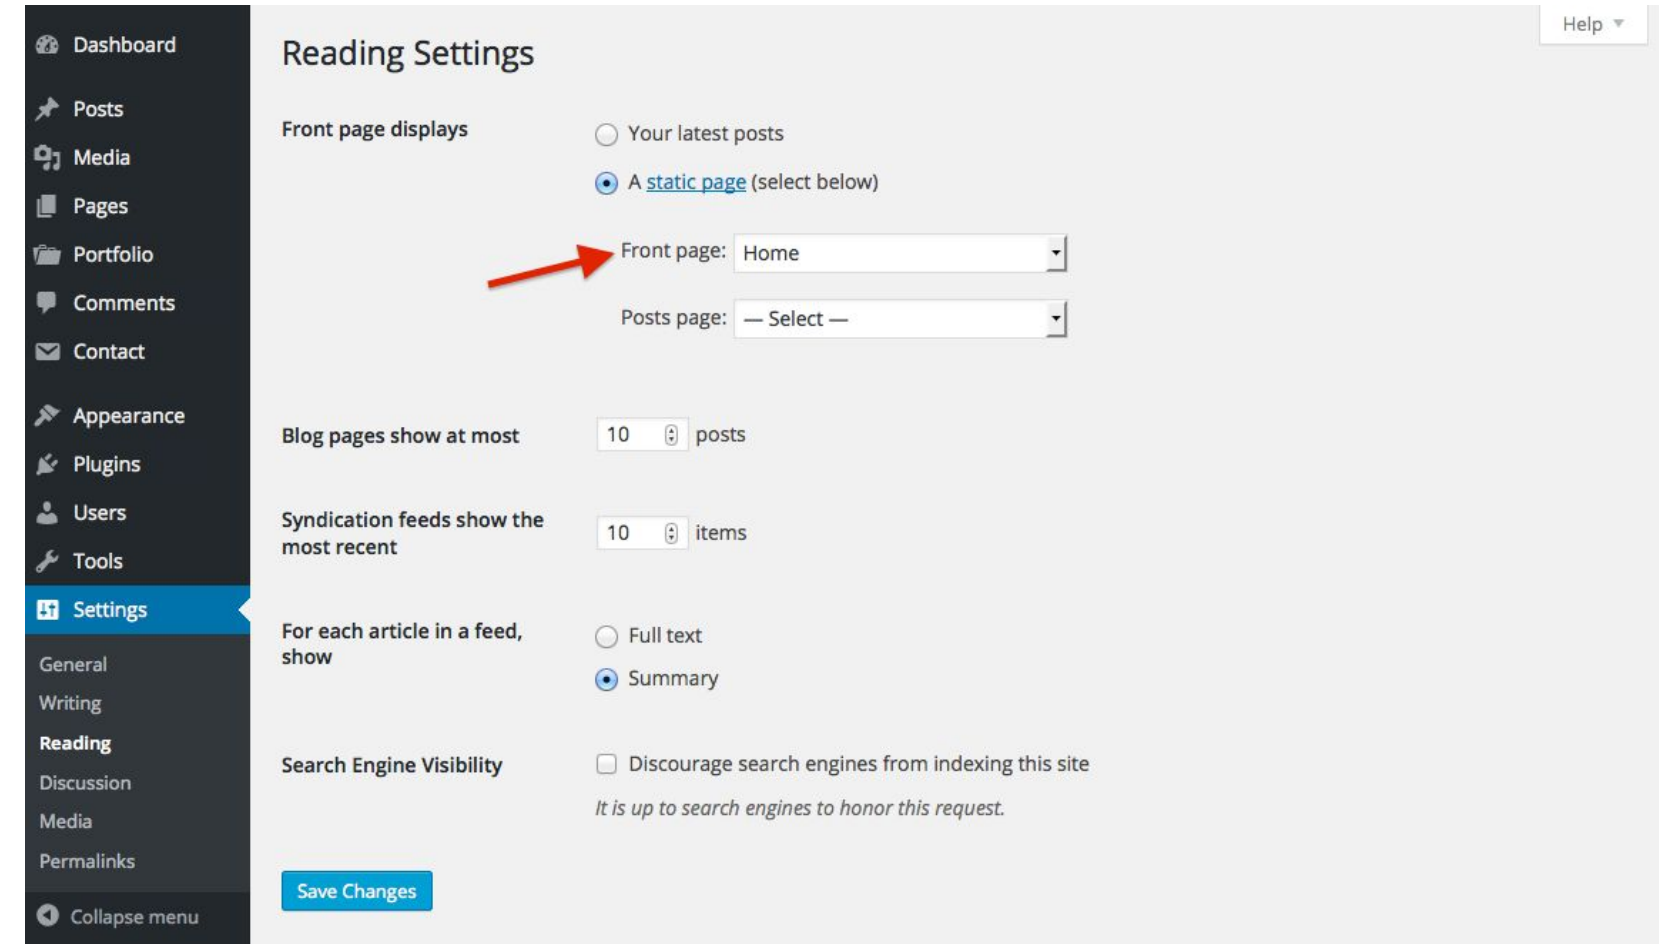

In order to create a **Education Pro** like front page like shown in the theme demos for **Education Pro**,

- First to create new page named Home(or else) .
- Select Homepage template for your just newly created page under Page Attributes on the right side.
- Finally, publish this page.

- Second, go to **Settings => Reading** in your WordPress dashboard.
- Select A static page and select your just created new page Home as *Front page*.

Note:- Don't forget to save your changes

2 – How to upload, install and activate Education Pro?

From WordPress Dashboard

- Login to Wordpress admin panel
- Go to > **Appearance > Themes**
- Click in **add New >Upload education-pro.zip file > Install Now**
- **Activate the theme**

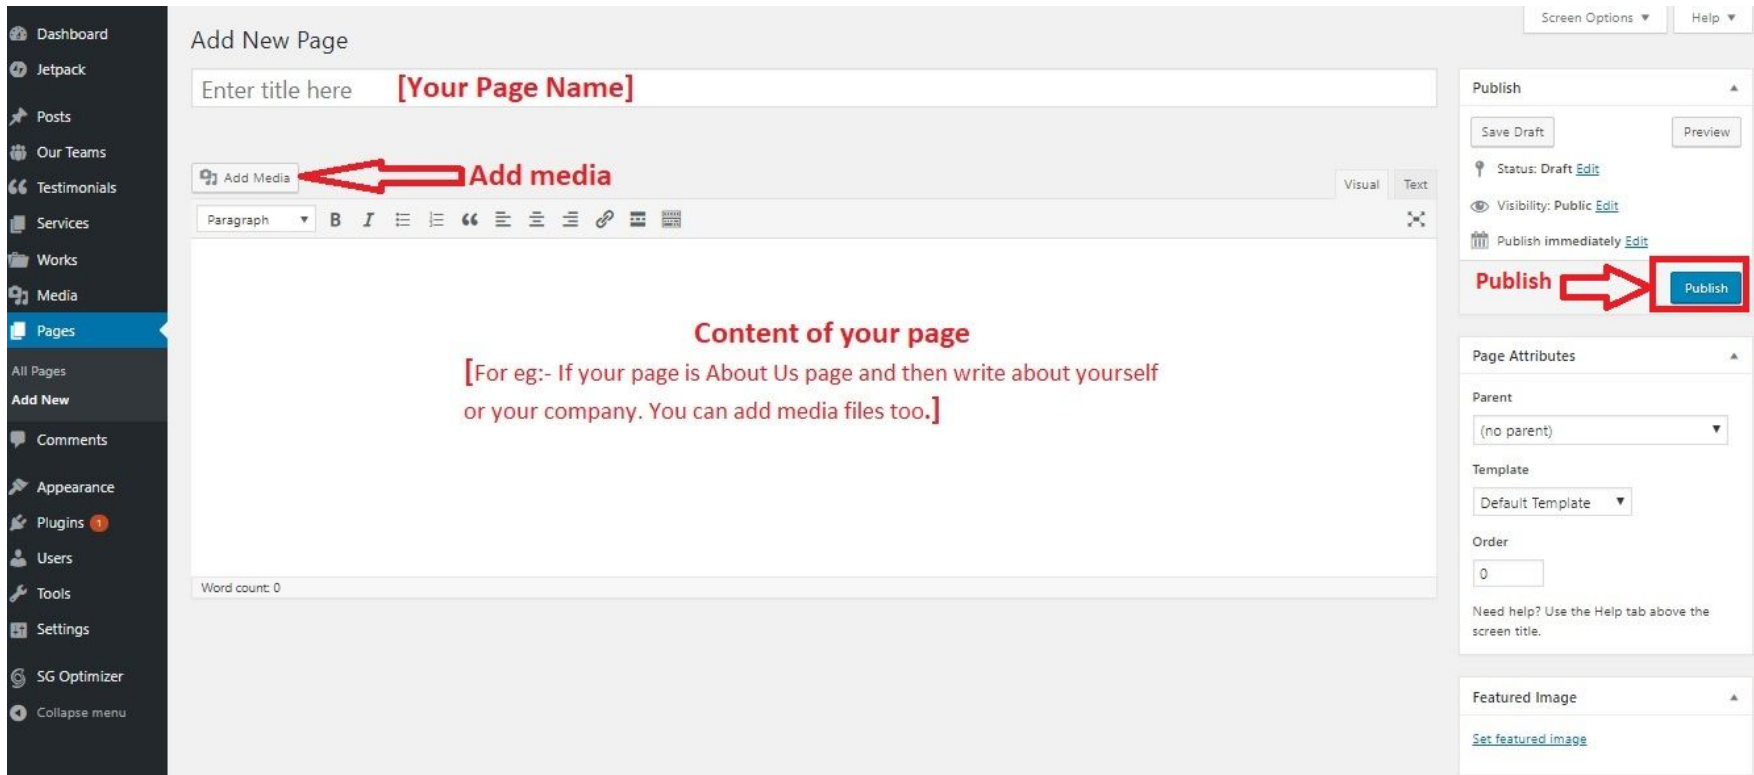

After installing the theme, now you can customize your website as per your preference.

3 –What is page and how to create it?

Pages are static and are not listed by date. Pages do not use tags or categories. An about page is the classic example. Pages can be displayed in the sidebar using the Pages widget, and some themes display pages in the navigation at the top of the site.

-To create page

- Go to dashboard
- Click in **Pages > Add New > Follow instructions as below**

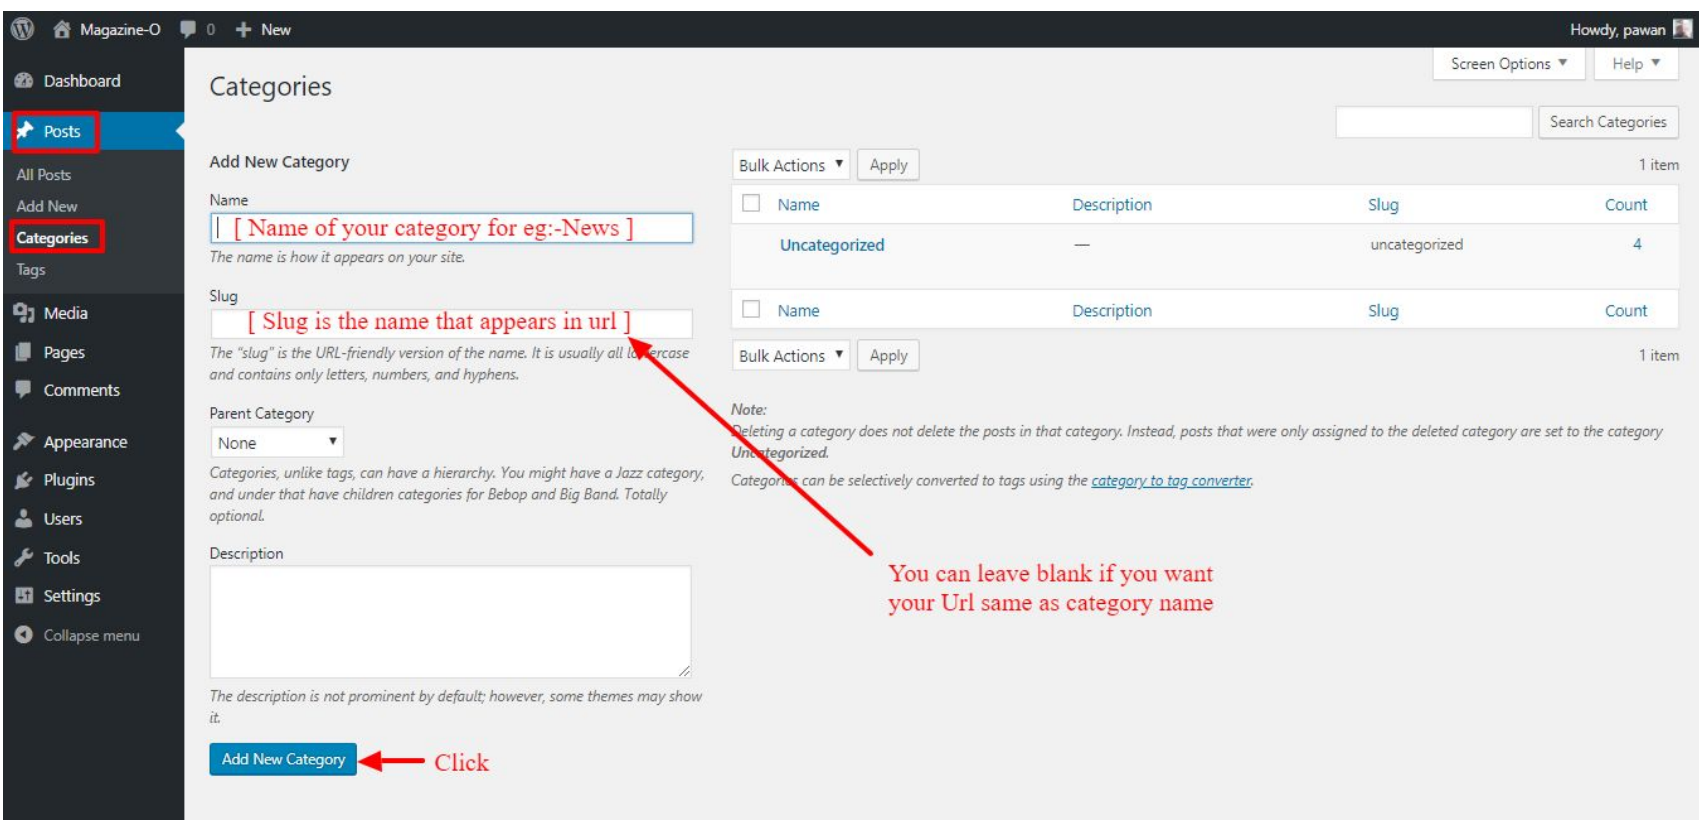

- After adding all content, you can publish your page and create necessary pages by same method.

4 – What is category and how to create it?

Categories provide a helpful way to group related posts together, and to quickly tell readers what a post is about. Categories also make it easier for people to find your content. Categories are similar to, but broader than, tags.

How to create categories

- Go to dashboard
- Click in **Posts > Categories**

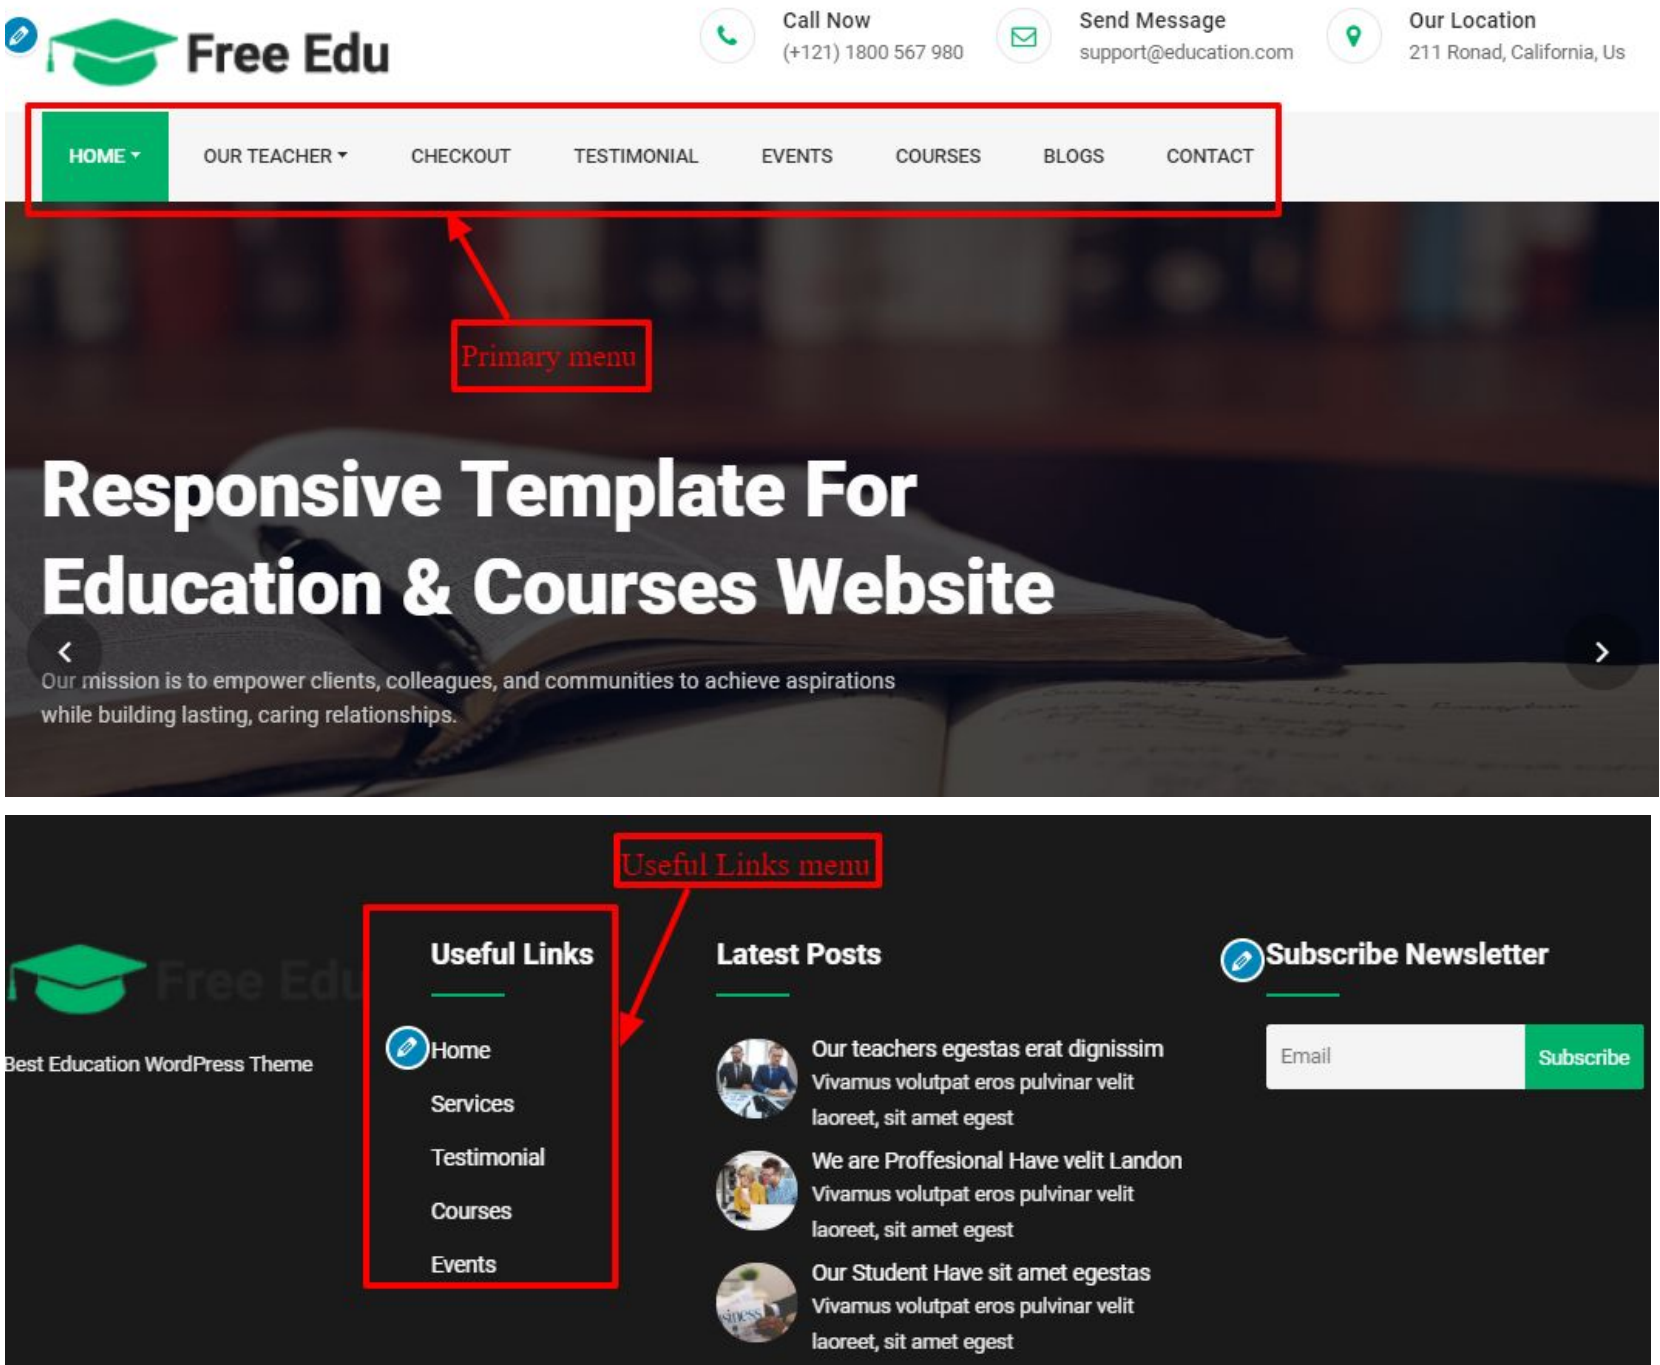

- You can put your own slug too, most of the time it is left blank which means name of the category itself will be its slug.
- [For eg. yoursite.com/category/category_name]

- You can put description if you want.
- Now after adding category, your category will appear in right side of the post page.
- You can add more categories in same manner.

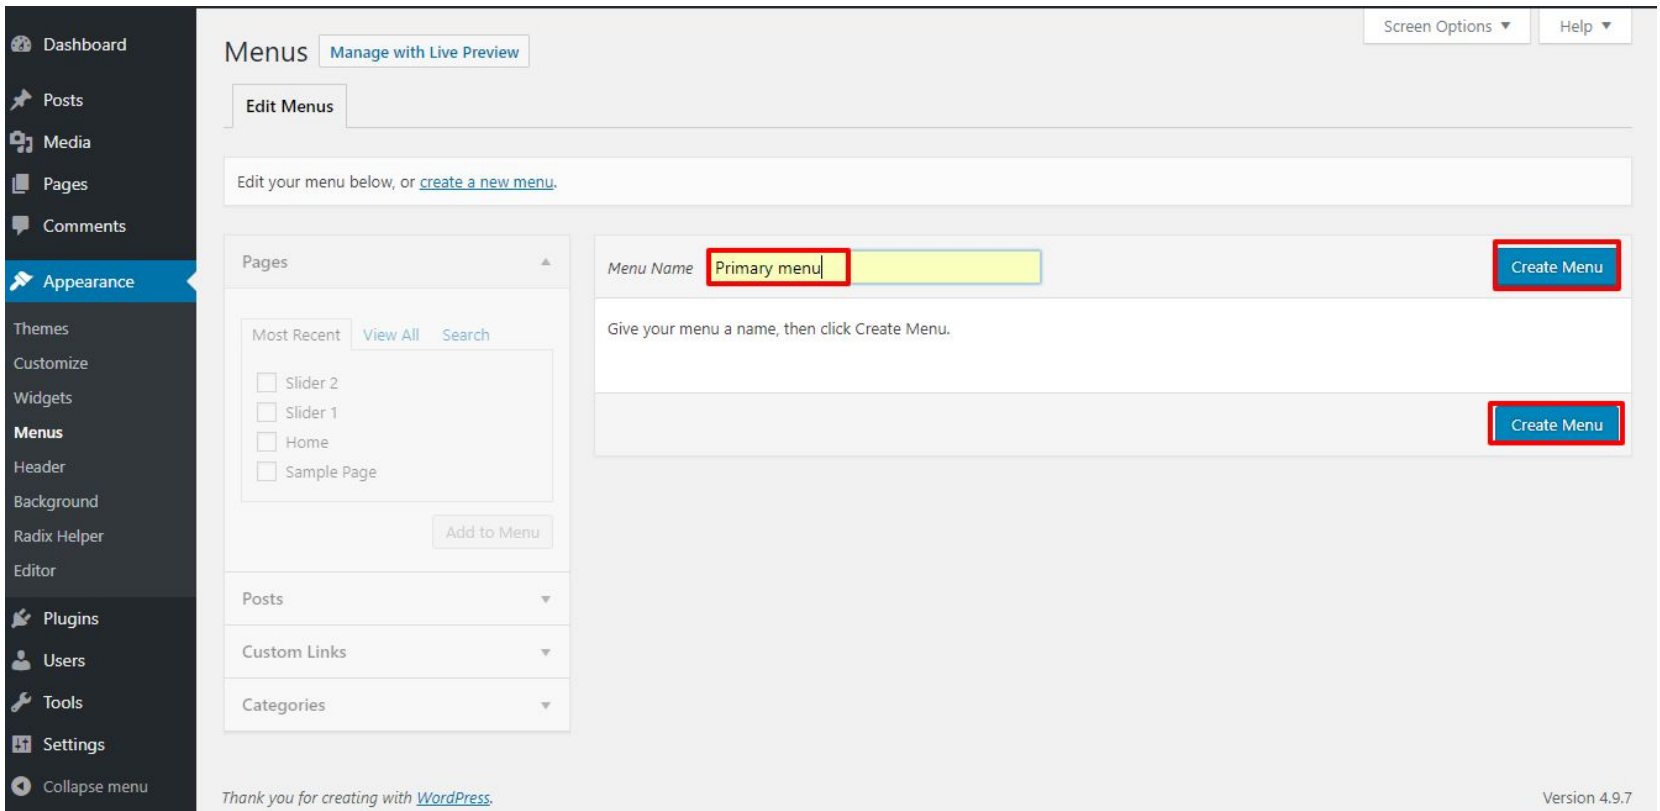

5 – How to create menus?

This theme comes with only two menu locations.**Primary** and **Useful Links(Footer)**.

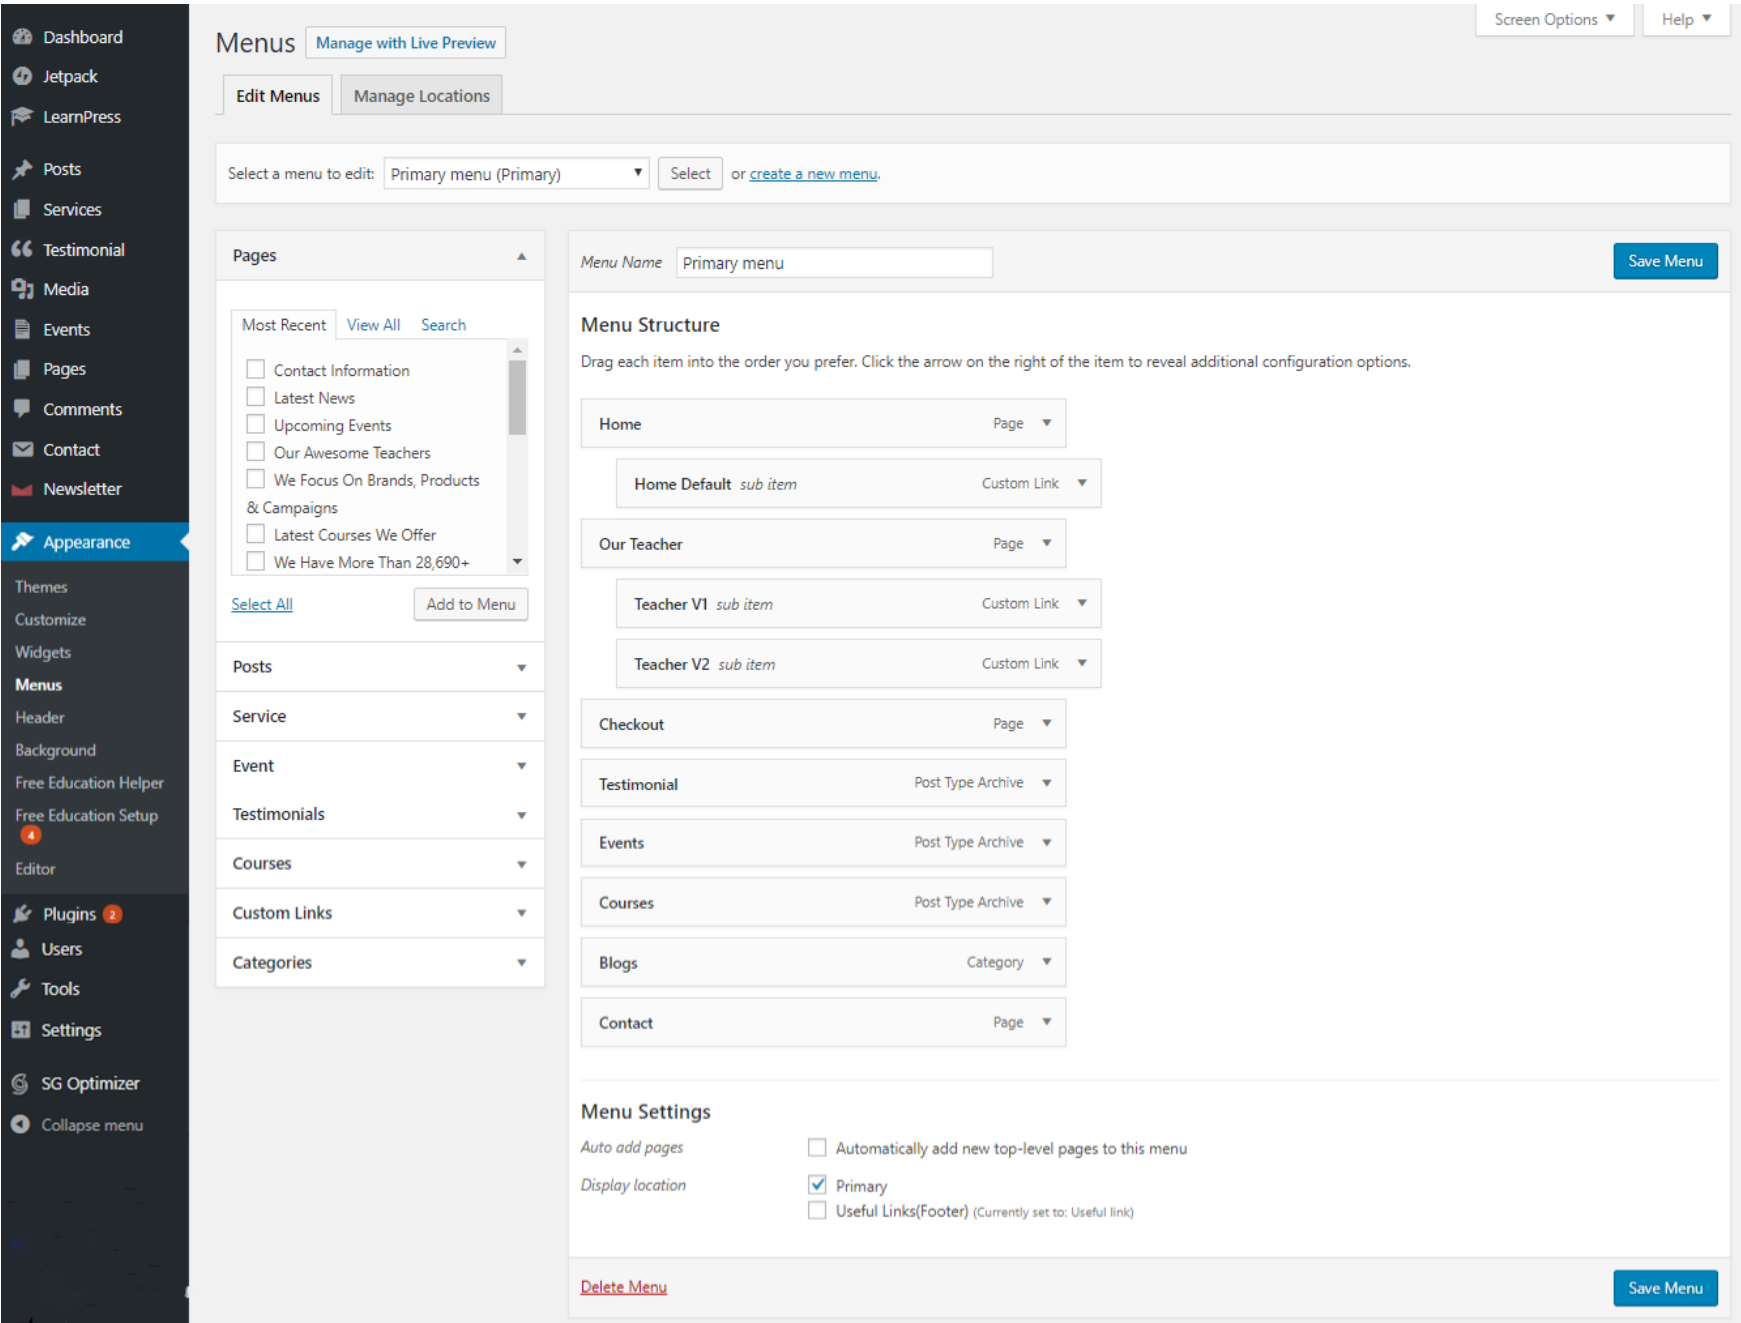

You can create menus in **two ways**.

- **Appearance=>Customize=>Menus=>Create New Menu**
- **Appearance => Menus**(We **RECOMMENDED** this Option for creating menus.)

- Create **New Menu** [You need to create three menu]
- Give name of the menu[For eg. Primary Menu] > **Create Menu**

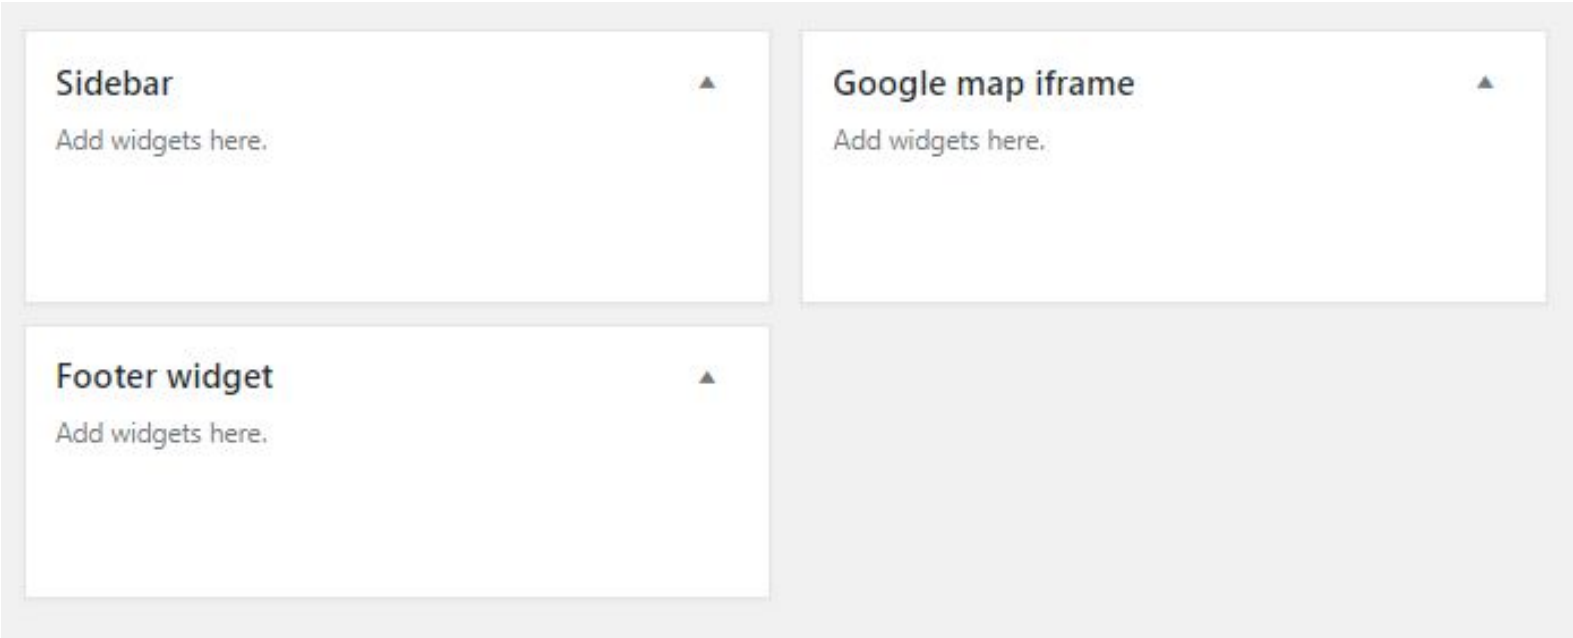

6 - How & where to place widgets on your website?

In this important step, we will show you where and how to place widgets. You can place widgets either through two ways:-

- **Appearance => Widgets**
- **Appearance => Customize => Widgets**

Note:- Widgets can be placed simply via drag and drop, so just pull your favored widget to the widget area you like.

Here you can see the **Available widgets** areas of **Education Pro** WordPress Theme.

Available Widgets

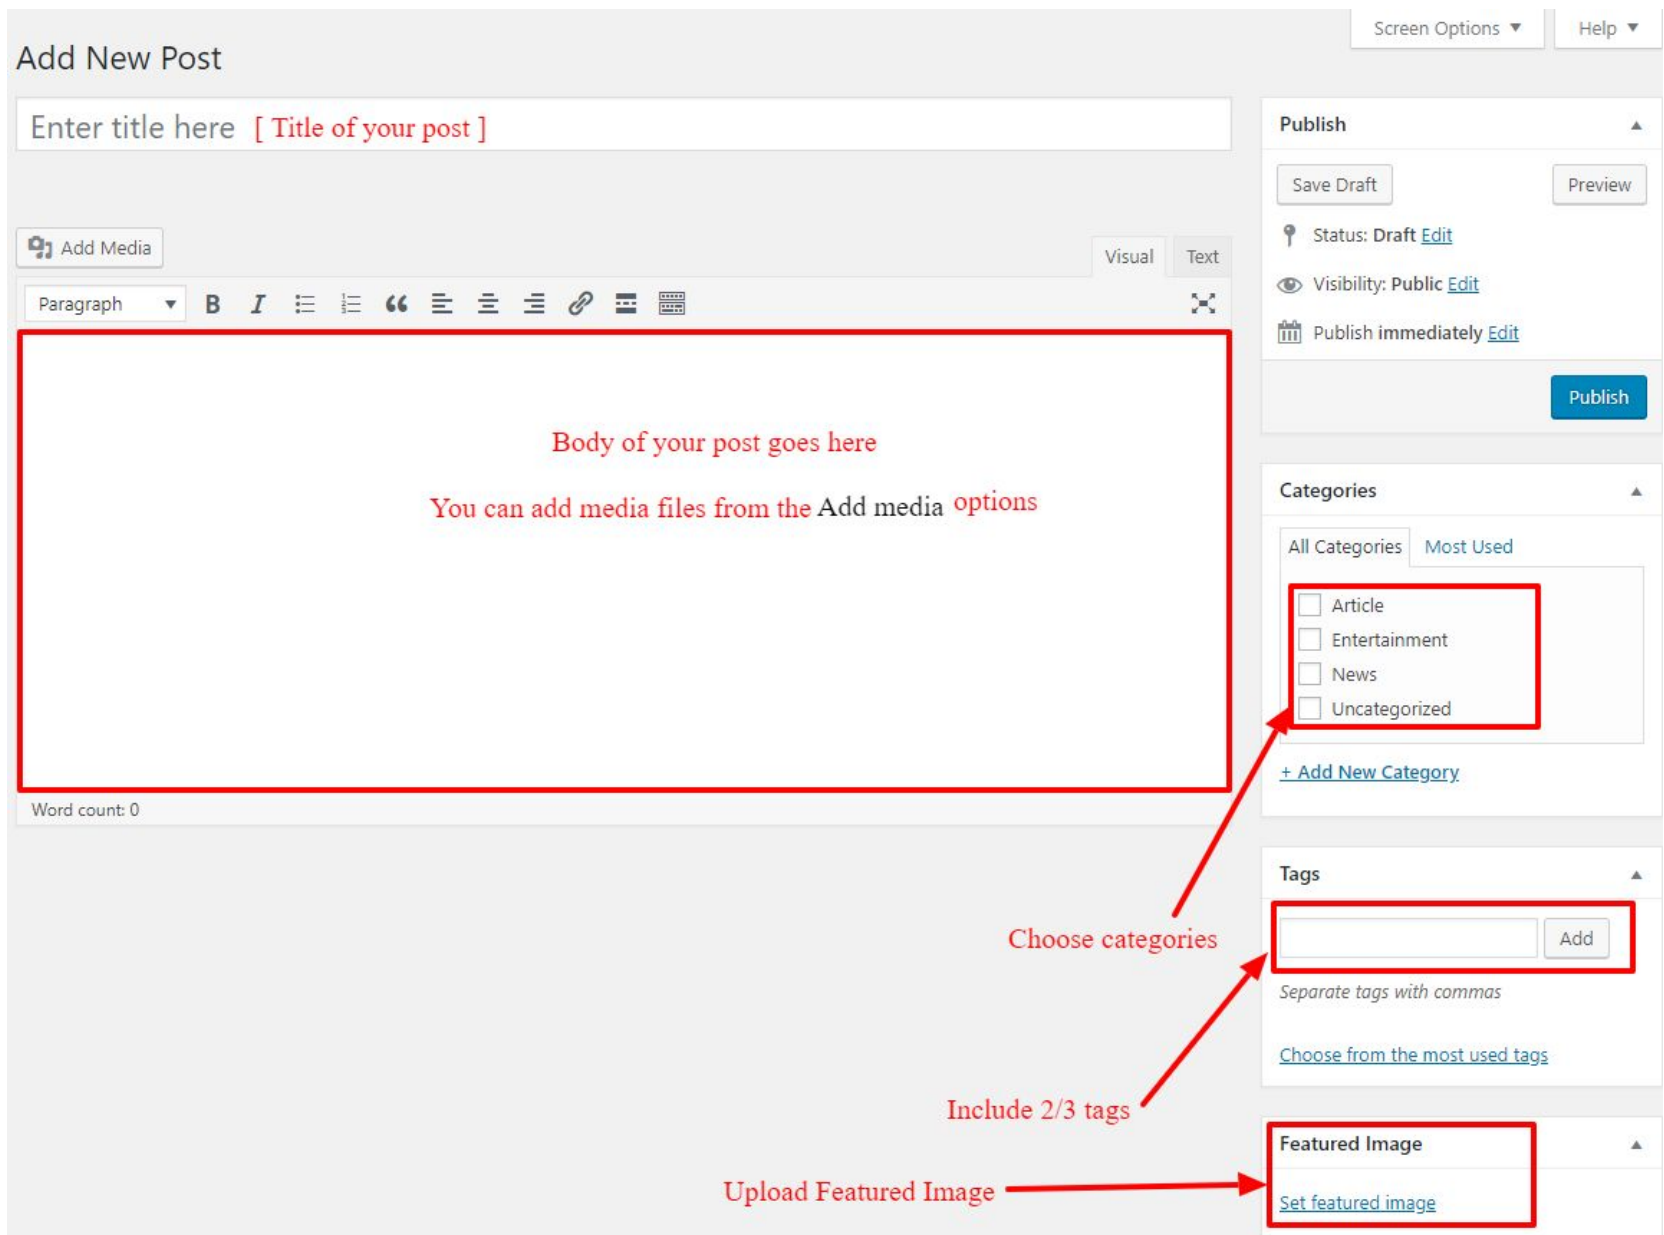

To activate a widget drag it to a sidebar or click on it. To deactivate a widget and delete its settings, drag it back.

Archives	Audio
A monthly archive of your site's Posts.	Displays an audio player.

Newsletter widget to add a minimal subscription form	A list of your site's Pages.
Recent Comments	Recent Posts
Your site's most recent comments.	Your site's most recent Posts.
RSS	Search
Entries from any RSS or Atom feed.	A search form for your site.
Sidebar: Recent Posts Widget	Tag Cloud
Custom Free EducationSidebar Recent Post Widget	A cloud of your most used tags.
Text	Video
Arbitrary text.	Displays a video from the media library or from YouTube, Vimeo, or another provider.

7 - How to create posts?

Now after all set, you can start writing your post. Follow these steps

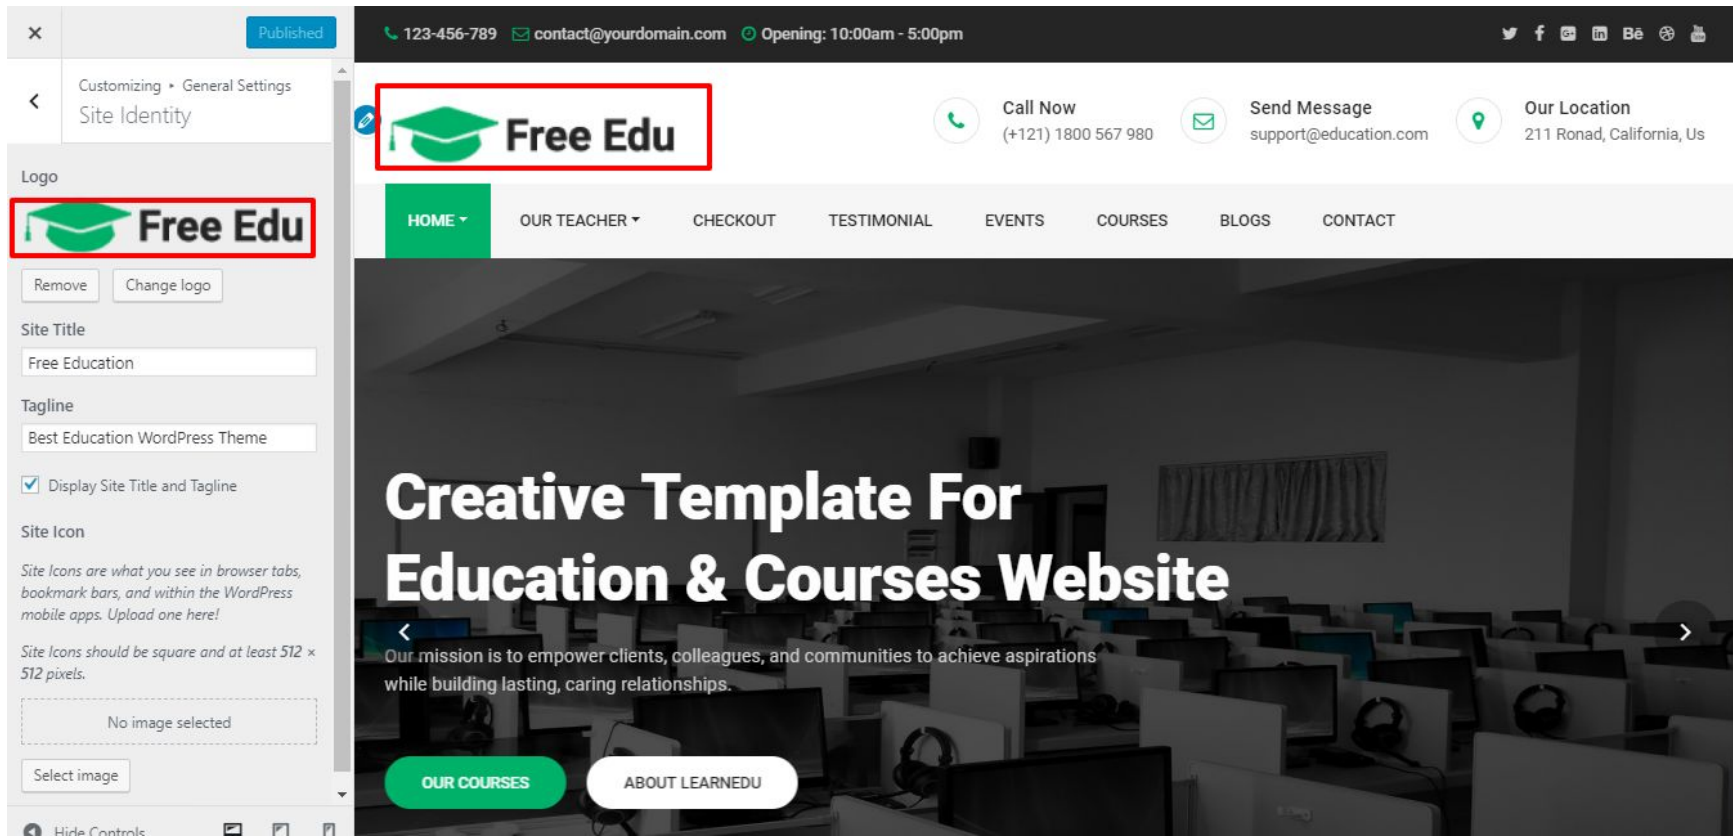

- Go to dashboard > **Posts** > **Add New**

- Finally, click in publish Button. You can preview your post before actually publish it just make sure everything is ok. If you have not completed writing your post then you can save it as draft.

8- How to add logo, header image and site title/tagline?

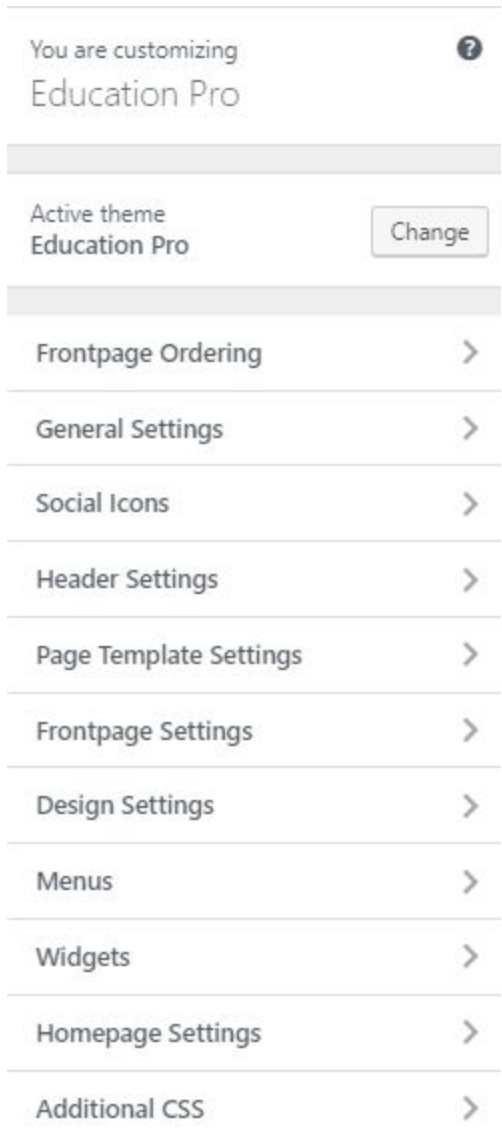

With **Education Pro**, you may customize your header in many different ways. To upload a full-width header image, go to **Appearance => Customize => Header Settings => Header Image** in your WordPress dashboard. To upload a logo and display/hide the site title and tagline, you can navigate to **Appearance => Customize => General Settings => Site Identity** and apply your changes based on your personal requirements.

9- How to adjust options & layout?

After you have carefully followed the previous steps, you have successfully completed the basic configuration of the theme. You can now further customize and manage the appearance of your website via the extensive options panel of **Education Pro**.

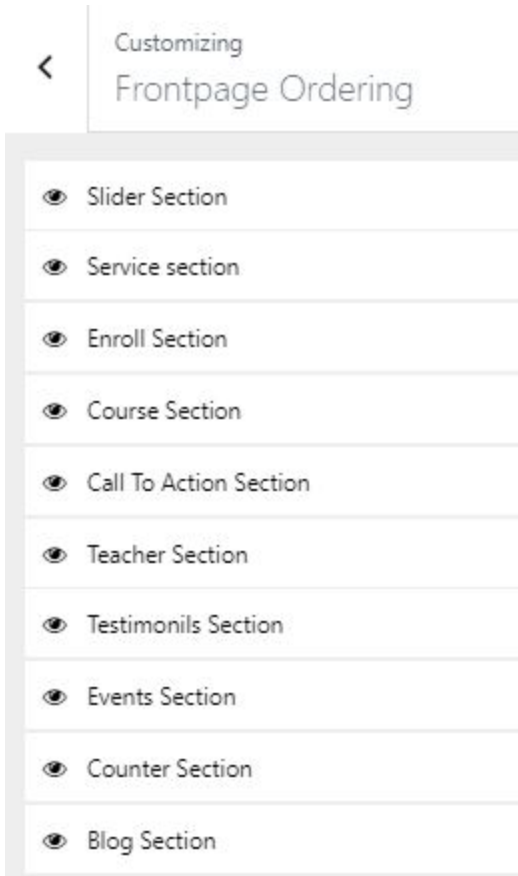

Please navigate to **Appearance => Customize** in your WordPress Dashboard to see the **Frontpage Ordering, General Settings, Social Icons, Header Settings, Page Template Settings, Frontpage Settings, Design Settings** panel within the WordPress customizer.
